SPICY ORANGE

This caramelized shade—as warm as red but less expected—is a great update for a traditional dining set but works equally well with more modern, clean-lined pieces. Pale flooring and plenty of natural light help keep the high-octane hue from feeling too intense.

MIDNIGHT SKY

This enveloping blue, tinged with green and black, sets off classic white-painted crown molding and chair rail beautifully. Eclectic furnishings in shades of linen and espresso brown help keep the sophisticated shade from looking too formal.
